WORK EXPERIENCE

15/03/2019 – 15/05/2019 – Bucharest, Romania

Software Developer Intern

Romanian Soft Company

During my internship at Romanian Soft Company I studied in detail the Java programming language, I worked with Apache Maven technology and SQL Server. The project we worked on is the creation of reports with data about patients in a hospital, data stored in a QR code that can be scanned to help nurses store data on their devices. The entire application was designed to help hospital staff drop off stacks of paper and upload all patient reports to their mobile devices or computers for greater efficiency and organization.

05/10/2020 – CURRENT – London, United Kingdom

Front-End Engineer

Kappa.London

At Kappa.London I have studied and worked as a Front-End Engineer. During my internship here I have built web pages and web applications using HTML5, CSS3, Javascript and React, but I also covered topics as Redux for app state management, working with API's, building Chrome Extensions etc. The projects that I've worked on were mainly focused on collaborating with the designer in order to implement his work into a stable, pixel-perfect web application. Besides, I also helped in implementing a Chrome-extension for Tinder where users can use some pre-defined phrases in order to start a conversation more easily.

01/02/2020 – CURRENT

Web Developer

Freelancer

As a freelancer, I designed and developed various websites and web applications based on my client's needs and preferences .

EDUCATION AND TRAINING

10/10/2017 – 05/07/2020 – Bucharest, Romania, Bucharest, Romania

Bachelor's in Economic Informatics

The Faculty of Cybernetics, Statistics and Economic Informatics

During the 3 years of college I studied various subjects such as: Web Technologies, Windows and Mobile Application Programming, Databases, Python Programming, Algorithms and Programming Techniques, Object Oriented Programming, Data Structures, Operating Systems, Networking, etc.

I took part in numerous projects in various areas of informatics, from programming web platforms to programming windows and mobile applications. With their help I managed to acquire the necessary knowledge that I can apply at the work place.

Java / C NET / Python / JQuery / JSON / XML / Android / Linux / Visual Studio / Visual Studio Code / Atom / Sublime Text / Android Studio / Eclipse / Microsoft Office / Photoshop / SQL / Figma / Adobe XD / Javascript / React / Nodejs / Git / SCSS / HTML5 / CSS3

DRIVING LICENCE

Driving Licence: B

ORGANISATIONAL SKILLS

Organisational skills

Working in a multicultural team with colleagues from all around the world helped me develop both my communication and organizational skills, We all worked according to an AGILE pattern. Also the fact that I worked in a remote environment helped me become much more disciplined with my time and resources, but it also helped me improve my time to deliver the given tasks

COMMUNICATION AND INTERPERSONAL SKILLS

Communication skills

Very good communication skills in English, developed by working in a multicultural environment, and by participating in international courses and seminars
